

## INSTALLATION INSTRUCTIONS FOR COMPLETELY FLUSH POKE THROUGH FLOOR OUTLETS (p/n 10177-01-0)

1. Core 4" hole through concrete floor. (Make sure hole is drilled straight).
2. Insert unit through hole in floor and thread on locknut provided from below.
3. Remove four screws in top cover plate and remove cover (Do NOT remove top flange).
4. Slide out fiber divider partition plates. (where applicable)
5. Remove four screws that hold the device mounting plates in place.  
(Note: Not the four holding the flange).
6. Remove mounting plate with receptacles, and then remove mounting plate for data jacks.
7. Pull wiring through threaded holes in bottom plate.
8. Wire up/Connect (or insert when applicable) communication jacks in mounting plate provided and screw plate in place using the screws provided. (Spring tab on jacks to outward. Two one way and two the other way). If you are installing a systems furniture configuration please see step #8 below.
9. Replace fiber divider plates. (NOT APPLICABLE IN MOI COMM-10, MOI SYS COMM UNITS or MOI DP1)
10. Connect field power to receptacle wire leads.
11. Set the receptacle mounting plate over the jack plate, using four screws and spacer nuts attached.
12. Replace the top cover plate using the four screws provided.
13. Carpet or other flooring is to finish up to the edge of cover for a flush installation.

If you are installing a systems furniture outlet (MOI SYS COMM OR MOI SYS NOC COMM OR MOI PASS THROUGH) replace step # 8 with the following:

8. Pull communication cables up through bottom plate, through unit and leave long enough to reach work station. Connect wire receptacle and replace mounting plate with four screws. Pass cabling through hole in cover plate and fasten the cover plate using four screws.

**The above installation instructions pertain to the following NOCOM Poke Through Configurations:**

**MOI: DP1, DP1 COMM4, PWR2 COMM4, PWR2 COMM5, PWR2 COMM6, PWR4, PWR4 COMM4, SYS COMM, SYS NOC COMM, COMM-10, AV COMM4, PASS THROUGH and PWR2 COMM4 DB15.**

If there any questions regarding installation, please contact 1-888-225-2478.
